- Chrome DevTools

INTERESTS

- Web Development
- Software Development

PROFILE SUMMARY

I am a recent graduate with a degree in Bachelor of Engineering (B.E.) in Information Technology from PUSSGRC Hoshiarpur. Throughout my academic journey, I have developed a strong passion for web development, particularly focusing on web technologies. I have always been fascinated by the power of the web to create interactive and visually appealing user experiences.

PERSONAL PROJECTS

E-commerce_App [Project Demo](#)

08/24 - 08/24

- A fully responsive e-commerce frontend using React, ensuring compatibility and optimal user experience across all devices. Focused on performance optimization and modular component design to improve scalability. Implemented reusable UI components, improving code maintainability and consistency.

- Integrated React Router for smooth, dynamic navigation between pages, enhancing user flow. Utilized React Toastify to implement real-time notifications for actions such as adding items to the cart and completing purchases.

Cryptoplace_React_App [Project Demo](#)

05/2024-05/2024

- Utilized ReactJS to design and implement dynamic, responsive, and interactive user interfaces for a cryptocurrency tracking application.
- Successfully integrated a cryptocurrency API to fetch and display real-time market data, including current prices, historical trends, and market capitalizations.

CERTIFICATES

01/2024-05/2024

MERN Stack Developer

Certified MERN Stack Developer with comprehensive knowledge and hands-on experience in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in building dynamic, responsive, and user-centric applications, with a strong understanding of front-end and back-end integration. Implementing APIs, managing databases, and optimizing application performance.
